

K-Tek® Klassic BOOM POLES:

- ❖ Klassic Poles are constructed from high-density graphite fiber selected for maximum strength and minimum weight.
- ❖ Telescoping sections are connected with unique "captive collets" that require minimum torque.
- ❖ The bottom coupling allows boom to attach a variety of accessories.

The K-Tek® Klassic is the original Academy Technical Award-Winning Boom Pole!!

Model	Length	Sect	Lbs.	Description	List
K-56	1'4" - 4'11"	5	0.652	The most compact of the K-Tek Klassic line of boom poles	\$370.00
K-56CC	1'4" - 4'11"	5	0.978	K-56 + CC Factory wired with coil cord and female XLR (bottom exit)	\$506.00
K-56CCR	1'7" - 4'11"	5	1.214	K-56 + CCR Factory wired with coil cord and female XLR (side exit)	\$536.00
K-81	2' - 6'9"	5	1.386	AKA "News Pole" with cushion Grip	\$395.00
K-81CC	2' - 6'9"	5	1.496	K-81 + CC Factory wired with coil cord and female XLR (bottom exit)	\$520.00
K-81CCR	2'3" - 6'9"	5	1.746	K-81 + CCR Factory wired with coil cord and female XLR (side exit)	\$550.00
K-102	2' - 8'9"	5	1.009	most popular pole for video	\$435.00
K-102CC	2' - 8'9"	5	1.292	K-102 + CC Factory wired with coil cord and female XLR (bottom exit)	\$575.00
K-102CCR	2'3" - 8'9"	5	1.542	K-102 + CCR Factory wired with coil cord and female XLR (side exit)	\$605.00
K-102FTS	2'3" - 8'9"	5	1.682	K-102 + FTS (Flow Through Stubby)-straight cable and M&F XLR's	\$585.00
K-152	3' - 12'8"	5	1.344	short pole for film, long pole for video	\$575.00
K-152CC	3' - 12'8"	5	1.649	K-152 + CC Factory wired with coil cord and female XLR (bottom exit)	\$710.00
K-152CCR	3'3" - 12'8"	5	1.649	K-152 + CCR Factory wired with coil cord and female XLR (side exit)	\$740.00
K-152FTS	3'3" - 12'8"	5	1.957	K-152 + FTS (Flow Through Stubby)-straight cable and M&F XLR's	\$725.00
K-202	3'10"-16'10"	5	1.673	Standard film production pole	\$675.00
K-202CC	3'10"-16'10"	5	1.836	K-202 + CC Factory wired with coil cord and female XLR (bottom exit)	\$835.00
K-202CCR	4'1"-16'10"	5	2.086	K-202 + CCR Factory wired with coil cord and female XLR (side exit)	\$865.00

K-251	4'7"-20'11"	5	2.138	extra extra long	\$775.00
K-251FT	4'11"-20'11"	5	2.409	K-251 + FT (Flow Through)- straight cable and M&F XLR's	\$925.00
KA-113	2'2" - 9'5"	6	1.776	AKA "The Articulated Pole" or "Bent Pole"	\$690.00
KA-113CCR	2'3" - 9'5"	6	2.303	KA-113 + CCR Factory wired with coil cord and female XLR (side exit)	\$860.00

K-Tek® KLASSIC

Price List

2007

K-Tek® Klasic Stage Poles with Quick Connect:

- ❖ **Rigid 4 section poles featuring drop through wiring and Quick Connect.**
- ❖ If collapsed length is not an issue, such as on large sound stages or on location with major productions that use two or three man crews, a four section pole offers certain advantages. A very long four section pole can be extremely stiff as the diameter of the smallest section is still considerable. The base section can be very long providing a long unobstructed handling area. There is less chance of movement in the couplings because there are fewer of them. Each Stage has a Quick Connect top section with a thread and cable slots.

Model	Length	Sect	Lbs	Description	List
KS-124	3' 3" -10' 4"	4	1.187	4 section 10'4" graphite quick connect stage pole	\$475.00
KS-124FTS	3' 3" -10' 4"	4	1.668	KS-124 with "Stubby Flow Through" Base and straight cable and M&F XLR's	\$625.00
KS-162	4' 1"-13' 6"	4	1.437	4 section 13'6" graphite quick connect stage pole	\$575.00
KS-124FTS	4' 1" -13' 6"	4	1.908	KS-162 with "Stubby Flow Through Base" and straight cable and M&F XLR's	\$725.00
KS-200	4'10"-16' 8"	4	1.650	4 section 16'8" graphite quick connect stage pole	\$675.00
KS-200FT	4'10"-16' 8"	4	2.121	KS-200 with "Flow Through Base" and straight cable and M&F XLR's	\$825.00

K-Tek® Klasic ACCESSORIES: Customize your pole to the way you work.

Model	Description	List
K-CC	Base unit with XLR male for internal coil cord	\$85.00
K-CCR	Base unit with Right Angle XLR for internal coil cord	\$115.00
K-FT	Flow Through Base for internal straight cord	\$65.00
K-FTS	"Stubby" Flow Through Base	\$65.00
K-CK-	Klasic Cable Kit – <i>Kit includes: Coiled Cable cut for your poles length, a TA3F connector soldered onto bottom of cable and a K-Tek 3 pin Female Switchcraft connector for the Top of Cable. Requires purchase of K-CC or K-CCR.</i>	\$80.00
K-CK-56	Cable Kit for the K-56 Klasic Pole	\$80.00
K-CK-81	Cable Kit for the K-81 Klasic Pole	\$80.00
K-CK-102	Cable Kit for the K-102 Klasic Pole	\$80.00
K-CK-152	Cable Kit for the K-152 Klasic Pole	\$80.00
K-CK-202	Cable Kit for the K-202 Klasic Pole	\$80.00
K-EX60	5' Extension Section for Klasic Poles (for poles without coil cable)	\$325.00
K-EX50	4' 2" Extension Section for Klasic Poles (for poles without coil cable)	\$285.00
K-EX40	3' 4" Extension Section (for poles without coil cable)	\$250.00
K-EX30	2' 6" Extension Section (for poles without coil cable)	\$225.00
K-EX20	1' 8" Extension Section (for poles without coil cable)	\$185.00
K-HE	750 gr. "HODGES effect" Brass weight	\$65.00
K-QC	Quick Connect Unit incl. one Spud	\$65.00
K-QS	Package of three Spuds for K-QC	\$35.00
K-QSL	Long Spud for K-QC	\$25.00
K-LEC	Lectrosonics Connector	\$100.00

K-Tek® AVALON Boom Poles:

Available with the same quality of graphite fiber tubing as used on the Klassic line, or in cost-effective aluminum versions of 3, 4, 5 or 6 sections. All models benefit from the same high-reliability collars with captive collets. When factory wired, a high-quality coiled cord is mounted inside the pole with a sturdy male XLR receptacle for a bottom or side exit.

"AVALON - GRAPHITE"

Model	Length	Sect	Lbs	Description	List
KEG-60	19.3"-5'	5	0.687	Carbon fiber boom pole.	\$325.00
KEG-60CC	19.3"-5'	5	0.937	Carbon fiber boom pole. Internally wired with coiled cable. Nuetrisk female XLR on top pigtail and Switchcraft Male XLR, bottom exit.	\$395.00
KEG-88 New!!	1'10"-7'3"	6	0.907	Carbon fiber "Traveler" boom pole.	\$325.00
KEG-88CC New!!	1'10"-7'3"	6	1.214	Carbon fiber "Traveler" boom pole. Internally wired with coiled cable. Nuetrisk female XLR on top pigtail and Switchcraft Male XLR, bottom exit.	\$395.00

K-Tek® ACCESSORIES

Price List 2007

K-Tek® Microphone Support Products:

Model	Description	List
K-GPS	Microphone Suspension; very versatile high tech suspension, using K-SUS suspenders that are spaced 3 1/5" (9 cm). Weight: 220 lbs (99 g)	\$165.00
K-GPSS	Short version of the K-GPS high tech suspension; the suspenders are spaced 2" (5 cm). Weight: 195 lbs (88 g)	\$165.00
K-SUS	Pair Microphone Suspenders	\$20.00
K-SM	Microphone Shock Mount: The microphone is held firmly in two polymer mounts spaced 2" (5 cm) apart. The mounts stretch to accommodate most shotgun mics. May be used with K-WA Windshield Adapter.	\$135.00
K-SSM	Microphone Short Shock Mount for short microphones: The microphone is held firmly in two polymer mounts spaced 1 3/8" (35 mm) apart. The mounts stretch to accommodate most shotgun mics. May be used with popular windshields by means of the K-WA Windshield Adapter.	\$135.00
K-S30	Pair of SOFT Rubber Mounts for SM/SSM	\$20.00
K-S40	Pair of NORMAL Rubber Mounts for SM/SSM	\$20.00
KE-US	Economical, universal suspension mount, using K-SUS suspenders	
K-DA-SM	Dual Angle Shock mount. (NO Angle Adjustments)	\$85.00
K-DA-SSM	Dual Angle Short Shock mount. (NO Angle Adjustments)	\$85.00
K-CAM-SM	K-SM Shock Mount for Camera Shoe	\$85.00
K-CAM-SSM	K-SSM Shock Mount for Camera Shoe	\$85.00
K-HG	Hand Grip: The K-TEK K-HG Hand Grip offers an efficient and professional method to handhold the system or easily attaches it to a pole or stand. Made of foam-covered graphite, this comfortable grip features a K-TEK pole head with a threaded base and weighs just 2.7 ounces.	\$65.00
K-HGW	Hand Grip Wired: The K-HGW is wired with soft cloth covered cable for maximum noise isolation.	\$100.00
K-BC	The boom cradle supports a boom pole and attaches to a grip stand knuckle with a stainless steel spud.	\$185.00
K-SA	Shoe Adapter for DV Cameras	\$35.00
K-OSE	Off-Set Shoe Extender	\$65.00
K-BWS	Sony Camera Adapter: The K-BWS adapter fits in the camera microphone clamp 0.98" (25 mm) of professional cameras and adapts to 3/8-16 thread. This makes mounting professional microphones to the camera very simple and versatile.	\$25.00
K-BWC	Canon Camera Adapter: The K-BWC adapter fits in the microphone clamp 1.05" (27 mm) of professional cameras and adapts to 3/8-16 thread. This makes mounting professional microphones to the camera very simple and versatile	\$25.00
K-BWJ	JVC / Panasonic Camera Adapter: The K-BWJ adapter fits in the microphone clamp 0.85" (22 mm) of professional cameras and adapts to 3/8-16 thread. This makes mounting professional microphones to the camera very simple and versatile	\$25.00
K-MS	20mm M/S Stereo Adapters for K-GPSS (For Schoeps Stereo Microphones)	\$35.00
K-WA	Windshield Adapter	\$35.00
K-SF	Slot Filler for Sennheiser MZW 60-1 Windscreen	\$20.00

High Quality Audio Coiled Cord

K-36NN	Approximately 3 ft of coiled cable which will stretch to approximately 18 ft. Neutrik Male and Female XLR connectors.	\$64.00
K-36NK	Approximately 3 ft of coiled cable which will stretch to approximately 18 ft. Neutrik Male and K-Tek Right Angle Female XLR connectors.	\$69.50
K-18NN	Approximately 1.5 ft of coiled cable which will stretch to approximately 9 ft. Neutrik Male and Female XLR connectors.	\$50.00
K-18NK	Approximately 1.5 ft of coiled cable which will stretch to approximately 9 ft. Neutrik Male and K-Tek Right Angle Female XLR connectors.	\$55.50
K-6NN New!	Approximately 6 inches of coiled cable which will stretch to approximately 4 ft. Neutrik Male and Female connectors.	\$39.50
K-6NK New!	Approximately 6 inches of coiled cable which will stretch to approximately 4 ft. Neutrik Male and K-Tek Right Angle Female connectors.	\$44.00

K-Tek® WINDSCREENS Price List 2007

From the makers of the K-Tek® professional boom poles, this unique range of windscreens are offering effective solutions for wind & handling noise reduction and microphone protection at affordable prices. The Fuzzy one-piece windscreen/shock-mount combinations are revolutionary; the Slip-On versions feature the same layer of high-density open cell foam bonded to a body of reticulated foam. The full size **Zeppelin®** cage based windscreens are designed to offer a complete and modular solution, for easy assembly and adaptation to the most demanding applications.

K-Tek® Slip-On Fuzzy:

- ❖ An excellent wind protection system for exterior recording with shotgun microphones.
- ❖ K-Tek's unique design combines a traditional faux fur exterior that breaks up the wind with a tightly woven fabric backing – making the Fuzzy the only slip-on windscreen with a layer of extra protection.
- ❖ The system's body of open cell foam slides smoothly over the mic head and fits snugly around the microphone capsule to provide additional support and insulation.
- ❖ It is available in 6 lengths to fit most shotgun mics and accommodates microphones from 17 to 25mm in diameter.

Model	Description	List
Z-FSO-T	Fuzzy Slip-On Windscreen – Tiny (bore length 3")	\$110.00
Z-FSO-XS	Fuzzy Slip-On Windscreen - XS (bore length 3.5")	\$110.00
Z-FSO-S	Fuzzy Slip-On Windscreen – S (bore length 5")	\$110.00
Z-FSO-M	Fuzzy Slip-On Windscreen – M (bore length 6")	\$110.00
Z-FSO-L	Fuzzy Slip-On Windscreen – L (bore length 7.5")	\$110.00
Z-FSO-XL	Fuzzy Slip-On Windscreen – XL (bore length 10")	\$110.00

K-Tek® Slip-On Fleecy: New!!!

- ❖ A simple and unobtrusive solution for microphone wind protection.
- ❖ The windscreen features an exterior of charcoal grey fleece backed with tough tight-weave fabric fitted over a body of open cell foam designed to slip easily and snugly over most popular shotgun microphones.
- ❖ Available in 6 sizes and accommodates microphones from 17 to 25mm in diameter.

Model	Description	List
K-FLCY-T	Charcoal Grey Fleece/Micro Fiber Slip-On – Tiny (bore length 3")	\$85.00
K-FLCY-XS	Charcoal Grey Fleece/Micro Fiber Slip-On – XS (bore length 3.5")	\$85.00
K-FLCY-S	Charcoal Grey Fleece/Micro Fiber Slip-On – Small (bore length 5")	\$85.00
K-FLCY-M	Charcoal Grey Fleece/Micro Fiber Slip-On – Med (bore length 7.5")	\$85.00
K-FLCY-L	Charcoal Grey Fleece/Micro Fiber Slip-On – Long (bore length 10")	\$85.00

****Models also available in Camouflage fleece exterior. Please specify when ordering.**

K-Tek® Topper Windscreen for Handheld Microphones and Sony PCM-D1: New!!!

- ❖ A unique wind protection system designed specifically for handheld microphones and Sony's handheld recorder PCM-D1.
- ❖ The Topper features an exterior of black fleece lined with tightly woven fabric, or with the traditional faux fur (in black short hair), tailored to fit snugly over standard foam covers.
- ❖ The ideal solution for handheld recording in the field, great for popular microphones like the EV-RE-50 and Sennheiser-MD 46.

Model	Description	List
K-TPR-FF	Topper- Black, short faux fur cover for handheld microphones	\$54.00
K-TPR-FL	Topper-Fleecy – Black, Fleece cover for handheld microphones	\$54.00
K-D1TPR-FF	Topper- Black, short hair faux fur cover for Sony's PCM-D1	\$54.00
K-D1TPR-FL	Topper-Fleecy- Charcoal fleece cover for Sony's PCM-D1	\$54.00

K-Tek® WINDSCREENS Price List 2007

K-Tek® Combination Fuzzy Windscreen/Shock Mount for Mounting on Poles:

- ❖ The first one-piece windscreen/shock mount system, it offers a simple and convenient solution for wind noise reduction and microphone protection during exterior recording.
- ❖ The windscreen features an outer layer of synthetic fur backed with a lining of tightly woven microfiber fabric and a body of open cell foam that fits snugly around the microphone capsule.
- ❖ The Shock Mount is based on the popular K-Tek K-SM.
- ❖ It is ideal for ENG and documentary recording.
- ❖ The system is available in 3 different lengths. Accommodates microphones from 17 to 25mm in diameter.

Model	Description	List
Z-FZ-S	Combination Windscreen/Shock Mount with boom adapter- Short (inside7 1/2")	\$250.00
Z-FZ-M	Combination Windscreen/Shock Mount with boom adapter- Med (inside 10")	\$250.00
Z-FZ-L	Combination Windscreen/ Shock Mount with boom adapter- Long (inside12")	\$250.00

K-Tek® Combination Fuzzy/Shock Mount Windscreen for Mounting on Cameras (Shoe Mount):

Model	Description	List
Z-CAM-FZ-S	Combination Windscreen/Shock mount with a hot shoe – Short (7 1/2")	\$200.00
Z-CAM-FZ-M	Combination Windscreen/Shock mount with a hot shoe- Med. (10")	\$200.00
Z-CAM-FZ-L	Combination Windscreen/ Shock mount with a hot shoe- Long (12")	\$200.00

K-Tek® Zeppelin® Microphone Protection System **NEW design for Medium and Long!!!!**

- ❖ The Zeppelin system consists of a injection-molded polypropylene microphone cage, 2 rubber retaining rings with removable sonic foam mushroom caps, XLR attached pig tail, and a snug-fitting lined faux fur High-Wind cover.
- ❖ The microphone is supported by K-Tek's popular General Purpose Suspension (K-GPS) or Short Shock Mount (K-SSM), which can accommodate microphones from 19-25 mm in diameter.
- ❖ The modular K-Tek Zeppelin assembles and dismantles quickly and effortlessly, for compact storage and travel, and easy replacement of parts. Once the system is installed, the microphone can be slid out of the basket at any time for use while still mounted on the K-GPS/K-SSM suspension.
- ❖ Options include a fleece cover for use in lighter weather, and a hefty hand grip for a handheld system away from a boom pole.

Model	Description	List
K-ZEPP-S	Cage/Casing – length 11 1/4" (for microphones like the Sanken CS-1)	\$375.00
K-ZEPP-M	Cage/Casing -- length 13" (for microphones like the AT4073A)	\$395.00
K-ZEPP-L	Cage/Casing -- length 16" (for microphones like the Sennheiser ME66)	\$425.00
K-ZEPP-XL	Cage/Casing – length 19" (for microphones like the AT4071A)	\$450.00

The K-Tek® Zeppelin also has the added accessory of a Fleece/Microfiber cover for as a light weather option cover; it will actually work great in heavier weather as well.

Model	Description	List
K-ZFC-S	Charcoal Grey Fleece/ Microfiber cover for Short Zeppelin	\$85.00
K-ZFC-M	Charcoal Grey Fleece/ Microfiber cover for Med. Zeppelin	\$85.00
K-ZFC-L	Charcoal Grey Fleece/ Microfiber cover for Long Zeppelin	\$85.00
K-ZFC-XL	Charcoal Grey Fleece/ Microfiber cover for X Long Zeppelin	\$85.00
K-ZHG	Hefty Hand Grip for Zeppelin, Light Weight Graphite construction	\$75.00
